

The Dream Factory

Due to the current circumstances surrounding the spread of the coronavirus, we are facing very challenging times. With events and socialising being restricted and contained, we will be in a very compromised position regarding fundraising. Please do continue to support us with donations where you can in order that we can continue to grant dreams to children and young adults.

We are doing to our best to meet the needs of our dream families as and where possible but many of the current dream requests have to be postponed due to Government guidelines for social distancing and self isolation.

We will continue to be available despite the difficult circumstances and would take every new dream request upon their individual merit. However, if anyone needs to request an end of life dream we will always treat this as a priority.

In the meantime, our thoughts are with everybody's health and welfare during this very difficult time. Our best wishes to everyone and do keep safe and well.

With Help From You We Make Dreams Come True
